

izba consulting

overview

about izba consulting

izba is a Supply Chain Consulting Firm that builds and advises supply chains for startups.

We augment your team in both short and long-term engagements providing thought partnership and day-to-day management while building out your internal full-time team as your business grows.

We support building, restructuring, and optimizing supply chains of startups in all phases of growth, as well as medium and large corporations, by leveraging Fortune 500 and startup operator experience to bring excellence to any situation.

Our goal is to scale companies quickly while freeing founders and leaders to focus on other aspects of their business.

services

izba can provide end to end expertise for your entire supply chain. No matter where you are in your operations, we have the expertise to streamline your processes all while saving money. Explore how izba can help you:

case studies

MIRROR

"Izba has been critical in helping us to grow aggressively over the past year. From expert negotiating to effective process improvements and standardization, Izba has helped us to scale our operations and cut costs smoothly despite hyper-growth. They are a pleasure to work with--I can't recommend them highly enough!"

- Brynn Putnam, CEO Mirror

HUBBLE

After 4 months, sales were 18 months ahead of schedule. Due to the upfront attention to detail in the Supply Chain design, each of the partners were able to scale very quickly and Hubble Contacts rocketed to a \$100M valuation after only 4 months with no service delays or stockouts.

flex

We rebuilt the Flex Customer Service team, adding in metrics to monitor performance and plan for future growth, helped launch new products, offered international fulfillment, renegotiated manufacturing contracts and implemented an ERP. With our help, FLEX was able to grow their Amazon business 4X year over year by Spring 2020, and their retail business by 100% in the same time frame.
